

Metallic Bubble Envelopes/Mailers

Silver Bubble Mailers: Silver metallic. Bright and shiny exterior. (Other colors can be done like Black, Pink or Gold, Please call to check for MOQ)

Extremely striking metallic bubble envelopes that are suitable both for direct mail purposes and as gift packaging. Through its glossy metallic appearance, this metallic bubble envelope, always attracts interest.

Light Weight: A light-weight, padded, ultra-tough, water resistant solution for many products. Perfect for e-commerce items like cosmetics, DVDs, books, jewellery, toys, CDs, pharmaceuticals, small parts, etc.

HOLD TEMPERATURE INSIDE: These cool shield bubble mailers serve best to keep the temperature of your package inside and will hold it for several hours until your mail is delivered. Thermal insulated bubble mailers are perfect for thermal protection of temperature -sensitive products.

BUBBLE CUSHION: insulated shipping containers mailers are suitable for fragile mail as well. Thus, insulated box liners envelopes save your electronics, frames, and another package during distant transportation and guard them with cushioning bubble lining, plummeting any physical impact.

LOW SHIPMENT COSTS: Thermal padded bubble mailers thanks to their material and airy bubbles are extremely light and don't add up additional weight. By using a thermal envelope you are able to mail whatever you want and stop worrying about extra costs.

SECURE PACKAGE: convenient self-seal closure while forming a water-resistant. While being opaque the exterior film keeps the contents invisible. Pressure sensitive adhesive. These designer padded envelopes have heat-bonded very strong tamperproof seals which provide safe shipping. Shipping labels for bubble mailers stick easily on padded packing.

Use a mailer instead of a box to reduce shipping costs
